Dear Parent

**Re: 1<sup>st</sup> Year A Level Maths Textbooks and Calculators**

Your son / daughter will be working from the Pearson Edexcel textbooks for Mathematics this year. We have some copies for use in school but can't supply one to each student to take home. They have access to the online version through Pearson's ActiveLearn platform and have been given details of how to use this. Please ensure that your son / daughter has indeed logged on and knows how to access this.

A good number of students have expressed an interest in having hard copies of the textbooks for themselves. I have contacted the publisher and they are willing to offer a 20% discount thanks to our previous orders with them. This year, your son / daughter will be working from the following:

Edexcel AS and A Level Mathematics: Pure Mathematics Year 1

RRP: £20.99

Edexcel AS and A Level Mathematics: Statistics and Mechanics Year 1

RRP: £10.49

I will be able to supply these as a **2 book package for £25 (Closing date 24<sup>th</sup> September)**.

If you would like to take advantage of this offer, you can make payment online, via the Internet Payments section on the school website. I will need payment by **September 24<sup>th</sup>** in order to apply the discount.

We will also be selling the **Casio fx 991 EX ClassWiz calculator** in school. Every student taking the subject at A Level *must* have a calculator with the necessary A Level functionality. These calculators can be bought elsewhere but at the moment we are able to get them for **£20** from our supplier. If you would like to purchase one through the Maths Department, please can students bring £20 into school in exchange for a calculator. The initial order has been placed and I will order more if we run out. I would urge students to get hold of one straight away to practise using it.

Yours sincerely

K Jobson  
Head of Mathematics
